

# ARMY CONTRACTING COMMAND FACT SHEET

**The U.S. Army Contracting Command's** Soldiers, civilians and contractors support our warfighters worldwide by acquiring equipment, supplies and services vital to our Soldiers' mission and daily needs. Purchases range from food, clothing, bullets and bombs, to tanks, trucks, helicopters and planes, to their weapons and the installations where they work and live with their families. ACC ensures our Soldiers have what they need to be successful at home and at work.

ACC is a major subordinate command of the Army Materiel Command currently located at Fort Belvoir, VA is transitioning to Redstone Arsenal, Ala. by July 29, 2011. As the Army's business conduit, ACC offers contracting expertise ready to support the warfighter while ensuring responsible stewardship of taxpayers' funds. ACC continually ensures contracting support to the warfighter as mission requirements emerge and change within the continental United States and throughout the globe.

ACC is lead by a civilian Senior Executive Service member equivalent to a two-star level command and has two subordinate one-star commands, the Expeditionary Contracting Command and the Mission and Installation Contracting Command, and seven major contracting centers that provide support to a wide variety of customers, including AMC's life cycle management commands and major subordinate commands.

An international business enterprise, the command awards more than 260,000 contracts each year valued at more than \$92 billion, which is equal to 66 percent of the Army's contract dollars and 17 percent of the total dollars spent on contracts by the entire federal government. ACC accomplishes this with more than 5,500 military and civilian employees at more than 115 locations worldwide.

The Expeditionary Contracting Command provides effective and agile contracting services across the full spectrum of military operations for Army commanders and joint warfighters as well as to other Defense organizations at locations outside the continental United States. ECC accomplishes this vital mission through seven Contracting Support Brigades, eight Contingency Contracting Battalions and 83 Contingency Contracting Teams throughout the world.

The Mission and Installation Contracting Command provides contracting capabilities and services within the continental United States and its customers include the U.S. Army Installation Management Command, U.S. Army Forces Command, the U.S. Army Training and Doctrine Command, the U.S. Army Reserve Command and the U.S. Army Medical Command. MICC utilizes seven contracting centers and 35 contracting offices throughout the United States, Alaska and Puerto Rico.

With a wealth of contracting expertise, ACC professionals are dedicated to providing the highest quality of contracting support to all of their customers, whenever and wherever needed. A combat multiplier, the Army Contracting Command is doing its part in to keep the Army strong.
